1. Treasure Spring School

Defined as a website material, all information about the Treasure Spring school have been uploaded and posted on the Treasure web site accordingly.

The screenshots below show evidence of the activities release during the Treasure Spring School:

The screenshot displays the website for the TREASURE Spring school in Paris. The page features a navigation bar with links to Home, Project, Objectives, Partners, News, events and Media, Resources, Standardization Toolkit, Newsletter, and Contact. The main content area is titled "TREASURE Spring school in Paris" and contains three paragraphs of text describing the event. The first paragraph states that the event was organized by MOVEO Next Move, partner of the TREASURE consortium, and was held in the Mama hotel in Paris. The second paragraph mentions that partners presented their work, and private companies like VALEO and FORBIA shared their vision on circular economy. The third paragraph describes a visit to Renault's refractory fabric and a meeting of TREASURE partners. On the right side, there is a "Categories" section with links to Events, Media, and News, and a "Recent post" section with links to GRETA tool developed by SUPSI, TREASURE Spring school in Paris, TREASURE workshop, and "AUTOMOTIVE RAW MATERIAL CIRCULARITY: Challenges and Opportunities". Below the text, there are four images: a group photo of participants, a group photo in front of a building, and two images of automotive components (injectors) with labels "Vilebrequin Avant Rénovation" and "Injecteur Avant Rénovation".
